

"INNOVATIVE RESOURCES FOR SCHOOLS"

MAGIC DAVE

SCHOOLS PACK

LESSONS AND WORKSHOPS

WELCOME

Thanks for taking the time to read this schools pack. Our aim is to ignite the imaginations of your students and create unforgettable educational experiences.

Whether you are looking for interactive workshops or engaging assemblies and lessons that blend entertainment with key messages or fun treats for your students, Magic Dave has something for every age and educational objective. With a dynamic and engaging approach to learning Magic Dave ensures that learning becomes a magical adventure inspiring creativity, curiosity and critical thinking.

This pack includes all the information you need to make learning an extraordinary experience for students and teachers. If you need any more information please do not hesitate to get in touch!

WHO IS MAGIC DAVE?

Magic Dave is an award winning performer who currently tours multiple shows across the country. With over a decades experience in the entertainment industry Magic Dave has built a reputation as one of the UK's most sought after entertainers.

Before this Magic Dave worked in Theatre in Education as well as working in schools teaching BTEC's and advising students. Dave has since used this experience to develop some of the workshops and lessons included here as well as enhancing his shows with more educational opportunities.

Dave regularly combines his experience to provide lessons in subjects such as special effects, magic and problem solving. His extensive client list includes the BBC, ITV, John Lewis, Costcutter and numerous theatres.

ASSEMBLIES/PRESENTATIONS

If you're looking for an inspirational assembly or a presentation on a tricky subject we can provide lots of interactive options to engage your students in a fun way. These presentations can be bespoke to your requirements, but we also offer pre-made lessons and assemblies.

SCIENCE MAGIC

Children are inherently curious and often have lots of unusual questions. Like how do rockets fly? Or can you stand on something sharp without it hurting? Magic Dave has developed this show alongside real scientists to answer some of these questions and inspire your students to practice critical thinking skills and gain a lifelong love of science. This extraordinary experience combines the enchantment of magic and the charm of puppets with the wonders of physics and chemistry to provide a fun and interactive way to explore key scientific concepts such as chemical reactions, gravity and pressure.

From mind-bending optical illusions and magical experiments that reveal the fascinating world of chemical reactions, Magic Dave brings science to life before your students' eyes. By seamlessly integrating our show with the curriculum, Dave ensures that your students not only have a fantastic time but also deepen their understanding of important scientific principles and developing critical thinking skills that will come in useful for the rest of their life.

This package is suitable for Key Stages 1 & 2 and can be either a 30 or 45 minute presentation. There are no limits of student numbers, and complimentary worksheet pdfs can be provided to aide learning.

INTERNET SAFETY

This presentation covers the challenging subject of internet safety teaching your students key skills to avoid scams, stranger danger and phishing attempts. This presentation uses similar skills and tricks that scammers use to demonstrate to your students how to keep your data (and yourself) safe online.

Some of our exciting demonstrations include a teacher searching something on their own phone - only for Dave to announce what they searched for without ever seeing it. Another fun demonstration is where your students collectively choose a random phone number to dial, only for the person on the other end of the phone to know what has been chosen on stage!

Using these magic and mind reading effects we demonstrate to your students how to stay safe online and how to enjoy the internet responsibly.

This presentation lasts approximately 20 minutes and has no limit to student numbers

MAGIC SHOWS

Are you looking for a memorable way to reward your students? Our extraordinary magic shows are the perfect treat for an end of year or Christmas celebration. Filled with puppets, silly magic and lots of humour these are shows not to be missed. Popular with school PTA's these 45 minute shows can be tailored to different ages and multiple shows can be performed in a day so that your students can all have a magical experience.

These shows can be combined with any of our workshops so it becomes a full educational package. Suitable for all ages, these shows have no limit to student numbers.

WORKSHOPS/LESSONS

A great way to spark your students imagination our workshops and lessons are designed to unleash your students creativity and problem solving skills, as well as encourage development their dexterity and physical abilities in a fun environment. These can be tailored to your curriculum and learning objectives and are suitable for all ages. All workshops include appropriate handouts and are limited to one class per session (unless otherwise agreed) Multiple workshops can be done in a day and can be tailored suit your schedule.

CIRCUS WORKSHOP

Step right up and experience the wonders that the circus can bring to your school! Join Magic Dave as we teach your students key skills like hand eye co-ordination, teamwork, and dexterity using juggling, acrobatics and the wonders of the circus. We provide all the equipment needed for your class to try everything from stilts to juggling, diablos and even a unicycle!

These workshops not only foster teamwork and collaboration between your students, but they are an excellent accompaniment to your students PE classes keeping them active and energised learning fun new skills. It's another fun way to develop another creative skill encouraging them to try physical new challenges with their friends in a fun and controlled environment!

MAGIC WORKSHOPS

These workshops are designed to captivate young minds, encouraging creativity, critical thinking, and self-expression through the art of magic. With a focus age-appropriate magic, we provide an interactive and hands-on experience that combines mind-bending illusions, awe-inspiring tricks, and the exploration of magic as a form of communication and storytelling.

We'll guide your students through the secrets of magic, teaching them a range of captivating tricks that they can master and perform themselves boosting their confidence, presentation enhance student engagement and create a dynamic learning environment. Don't miss this incredible opportunity to spark wonder and curiosity in your students

CREATIVE PROBLEM SOLVING WORKSHOP

This exciting workshop will ignite your students' minds and empower them with invaluable problem-solving skills. Particularly beneficial for children with challenging behaviour, this immersive experience captivates even the most resistant learners drawing them into a realm of curiosity and discovery using magic and psychology.

By challenging them to unravel the mysteries behind captivating tricks, this workshop fosters their creative problem-thinking abilities, allowing them to channel their energy and focus into a positive outlet. Witness as their engagement and enthusiasm soar, as they eagerly work to decipher each illusion, honing their critical thinking and analytical skills along the way.

Furthermore, we go beyond the realm of magic and connect these problem-solving skills to real-life situations, providing these students with practical tools to overcome obstacles and find innovative solutions. This transformative workshop will leave your students fascinated and equipped with lifelong problem-solving skills that will benefit them for years to come.

SPECIAL EFFECTS WORKSHOP

Do you ever watch a show and think "how did they do that?" Or do you want your students to learn some fun teamwork, creative and problem solving skills? This workshop focuses on how to create some of the special effects seen on TV and on the stage and as Peppers Ghost and how they are still used today to create magic. It's a fun way to explore scientific oddities and channel them into a creative and artistic skills in your students.

FREQUENTLY ASKED QUESTIONS

Do you have PLI?

Yes. We are covered through Equity for £10m

Are you DBS checked?

Yes. All members of staff are DBS checked (available on request)

What group sizes do you cater for?

Most of our workshops are limited to one class per session, but assemblies can be for unlimited numbers

Can you book multiple sessions a day?

Yes! A lot of schools book multiple workshops in a day to cover different year groups (for example 6 x 30 minute workshops to cover 2 different year groups, plus an assembly for the whole school). Discounts are available for multiple bookings.

How much do these sessions cost?

Dave's aim with these services is to provide your school with great educational opportunities at the lowest possible price. We don't supplement our services with additional products targeted at your students in return for "free presentations" that other providers may do. Instead we see this as our way of giving back to the community, offering your children experiences they may not normally get to have at a rate that parents, schools and PTA's can afford.

Our pricing is bespoke to your individual needs and is based on your location and specific requirements. Prices start at £100 for assemblies/presentations and workshops are priced based on number of students/workshops. For an exact quote please get in touch using the info below.
